PROFESSIONAL SUMMARY

Detail-oriented BCA graduate specializing in Python development, with a solid foundation in software logic, data structures, and object-oriented programming. Experienced in building mini-projects using Python and front-end fundamentals (HTML5, CSS3). Quick learner with strong debugging and problem-solving skills, seeking an entry-level Software Developer role.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, Java, PHP
- **Web Development:** HTML5, CSS3
- **Tools & IDEs:** Visual Studio Code, Microsoft Excel, Microsoft PowerPoint
- **Core Concepts:** Data Structures, Logic Design, Object-Oriented Programming (OOP)

EDUCATION

Bachelor of Computer Applications (BCA)

University Institute of Technology, Karuvatta — Graduation Year: 2026

Higher Secondary Education (+2)

Sree Narayana Memorial Higher Secondary School, Purakkad — Completion Year: 2023

Secondary School Leaving Certificate (SSLC)

Sree Narayana Memorial Higher Secondary School, Purakkad — Completion Year: 2021

ACADEMIC PROJECTS

Python and Web Development Mini-Projects

- **GST Bill Verification System** — Python-based tool to validate GST bill details and formats.
- **AI Medical Advisor System** — Python application providing preliminary medical guidance based on user input.

SOFT SKILLS

- **Fast Learning & Adaptability:** Quickly adapts to new technologies, programming concepts, and changing project requirements.
- **Decision Making & Critical Thinking:** Applies logical thinking and sound judgment during coding, debugging, and project development.
